

Testimonials

Mr. Jimmy Lim – Singapore (Male)

Symptoms: Strains due to aging

After using the sample mattress material, my hair has turned from grey to dark. Neck strains due to work also became less frequent and eventually gone. At an age of 60+, he is leading a healthy and happy life and maintains his office work routine, all with the blessing of the high tech products that he uses.

Huang Ming Eh – Taiwan (Female)

Symptoms: Asthma

My daughter Chen You is a typical asthmatic kid. Every time the season changes. It was the time for her to go to the doctors. There was no exception for her not to take any medicine. Sometimes we even had to send her to the emergency room! We went to different hospitals, thousands of doctors, acupuncturists; both of us were extremely exhausted. I was introduced to Negative Ion Products, I didn't believe in Tevion products in the beginning, but for the sake of my daughter, I bought the whole set. The result turned out surprisingly well. She didn't go to the doctor once this winter after she started to wear Negative Ion Clothing. I am deeply impressed. I sincerely would like to thank the company for producing such a high tech product. My daughter is certainly a lucky kid. Believing is a blessing.

Shu Hua Chang – Taiwan (Female)

Symptoms: Vegetable allergy

Twenty years ago, a car accident drove me and my family to despair. I was in the ICU for one month, struggling for life. Sadness loomed my family. I was saved, only to become a vegetable. Ever since that day, I was removed from ICU. My family had never given up on me. They tried all they could to find the best doctor for me. I was a little better; however, regaining health was a long way to go. I couldn't articulate, I drooled and was irritable. My life was one in hell and I was on the verge of committing suicide, just as I was about to give up. My good friend Hsu Chuan came to visit and recommended Tevion products. With suspicion, however I tried them on. Thank God I did the right thing. At first, I used them for my brain, in which I used to feel a blur. Two days later, the blur disappeared and my limbs were not numb. I didn't hesitate to use the products to a large extent. My life has changed since that moment. I choose to believe in these products, and I am determined to share them with people around me, so that they can be healthier and happier.

Gui Yimg Xie – Taiwan (Female)

Symptoms: Parkinson's diseases

In the early 2000, I went to see a neurosurgeon because there was something wrong with my wrist. I had various checkups but the doctor found nothing wrong. Then the doctor suggested me to see a neurologist and I was diagnosed with Parkinson's disease, though I was despair. I went to see a doctor of Chinese medicine, but I got the same result, I had nephropathy treatment but it took little effect. My hand still trembled and I couldn't keep balance when I walk. It was a miracle that I met Yin Mei. Through her, I learned about the Tevion health products. I tried some products first. A few days later, my hands felt sore and they hurt. I knew signs of recovery appeared as Yin Mei had told me. So I decided to use the whole set. It has been only six months. I can do all those things I couldn't do over the past five years. I am able to raise my hand, keep my balance when I walk. I can stride, lift my feet and even trot. What's more, I can ride a motorcycle. What a relief. How lucky I am. I wanted to Thank Tevion Products.

Tu Xing Zhun – Taiwan (Female)

Symptoms: Permanent injury to neck, low blood pressure, hemorrhoids, cold, cancer, Insomnia.

A car accident when I was little caused a permanent injury to my neck. The older I get the more painful it is, it even expanded to my shoulders spine and both arms. It seriously damaged my mood and sleeping quality. The first time I heard about Negative Ion Clothing was on November 2002. In the beginning I was just curious and also I thought that the business system was really great. So I joined as a member, I put the sample blanket where it hurt, immediately it eased my pains, so I decided to buy a lot of products. My husband has athlete feet, has improved by wearing the socks. My low blood pressure and hemorrhoids improved. My four year old son used to get cold easily, after the use of neck support he coughed a lot of phlegm the next morning, he got healed. The blankets really improved my back ache and sleeping quality. So I recommended to my teacher's wife who was in a late stage of cancer, after she used the blanket her stomach intestines started to function again, which made her fart a lot and poop three times a day.

She decided to use a full set in order to get rid of the poison in her body. She has recovered very well. I would like to thank God because he heard my prayer and blessed me and everyone around me.
